

Starflower bracelet by jayceepatterns.com

This pretty crystal bracelet is stitched in Netting stitch and Triangle weave. The bracelet in the picture measures 6.75" without a clasp. If you wish to make a longer bracelet, you will need more beads. For a 6.75" bracelet without the clasp, you will need the following items:

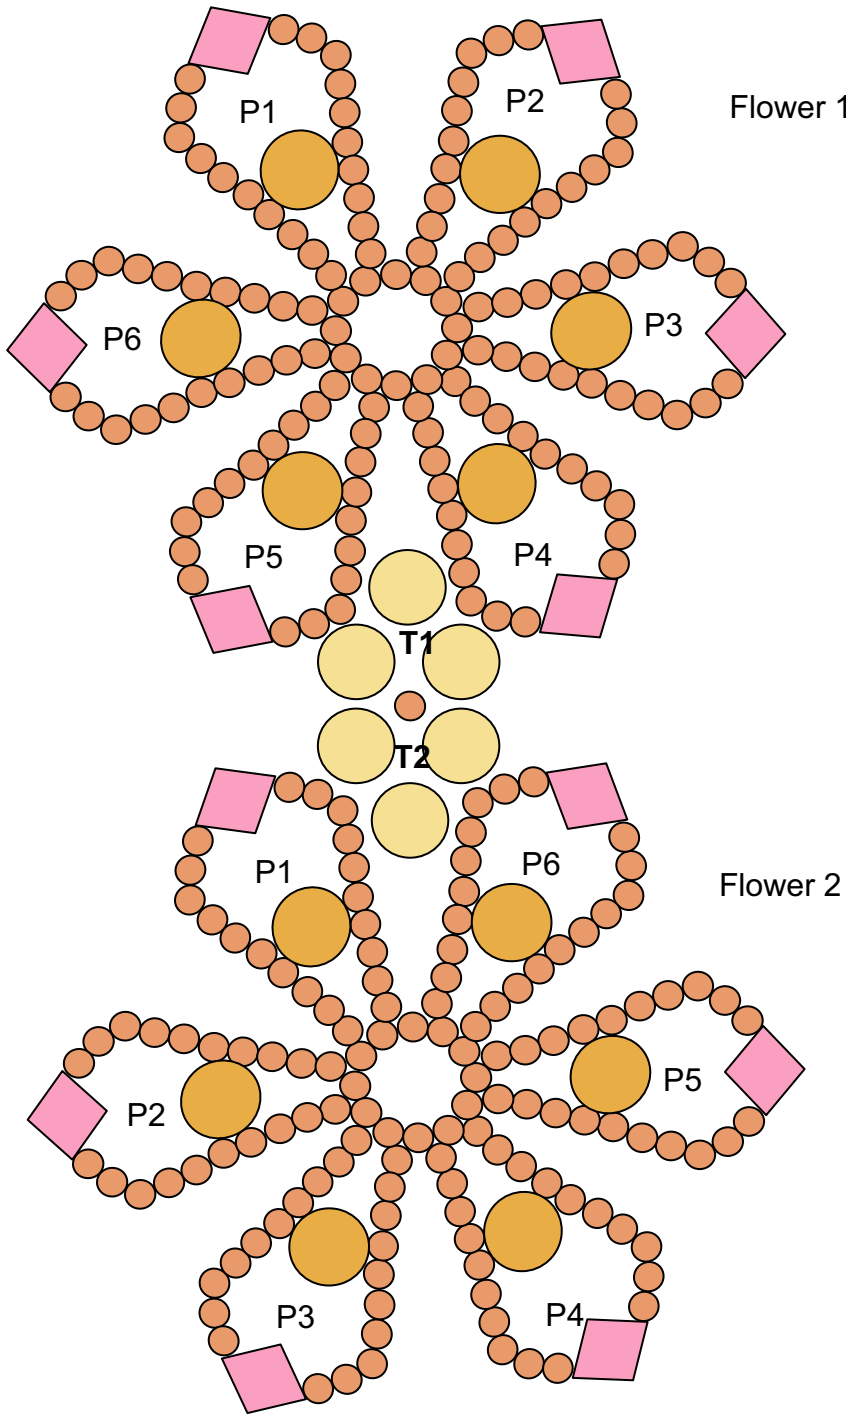

36 x 4mm Swarovski crystals – Rose
 1 x 6 OR 8mm Swarovski crystal – Rose
 30 x 3mm Swarovski pearls – White OR cream
 36 x 4mm Swarovski pearls – Bright Gold
 820 (4 grams) Size 15/o Miyuki rocailles 462D

The pattern is for Seasoned beginners and up and is laid out in steps. The instruction code for the beads is as follows:

Size 15/o seed beads – **seeds**
 3mm white or cream pearls - **WP**
 4mm gold pearls – **GP**
 4mm rose crystals – **R crystals**

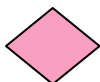

The beads for this project can be obtained at www.firemountaingems.com

Starflower - Bead layout

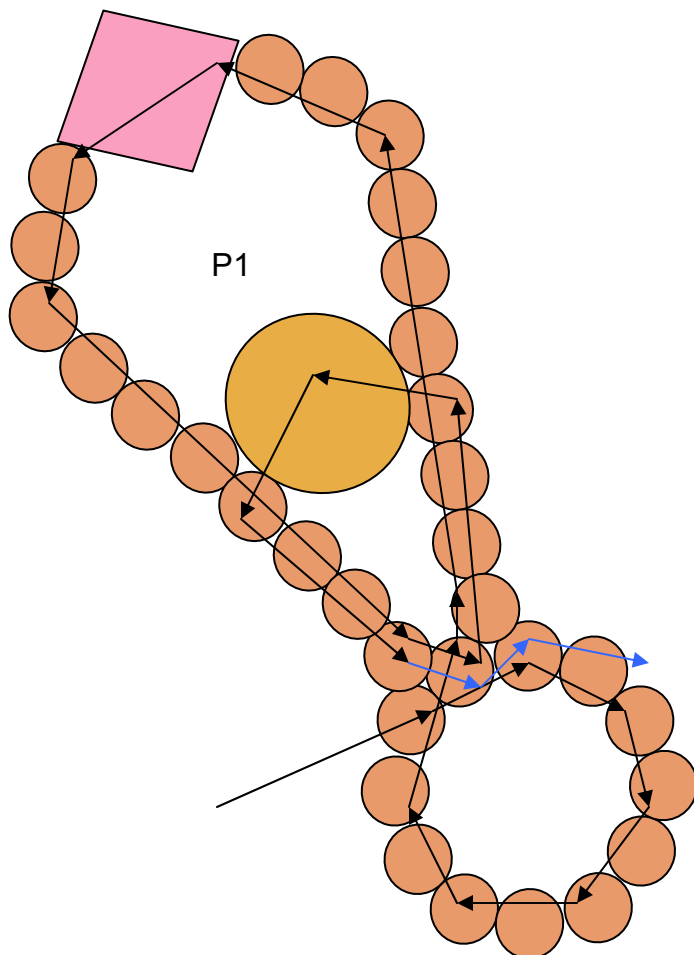

You will notice in the Steps for this pattern, that some areas of the diagrams are light shaded and others are dark shaded.

The light shaded areas indicate beadwork that has already been stitched, while the dark shaded areas indicate beadwork that still has to be stitched.

-  4mm Swarovski crystal - rose
-  3mm Swarovski pearl - white OR cream
-  4mm Swarovski pearl - bright gold
-  Size 15/o seed beads

Starflower Bracelet - Step 1

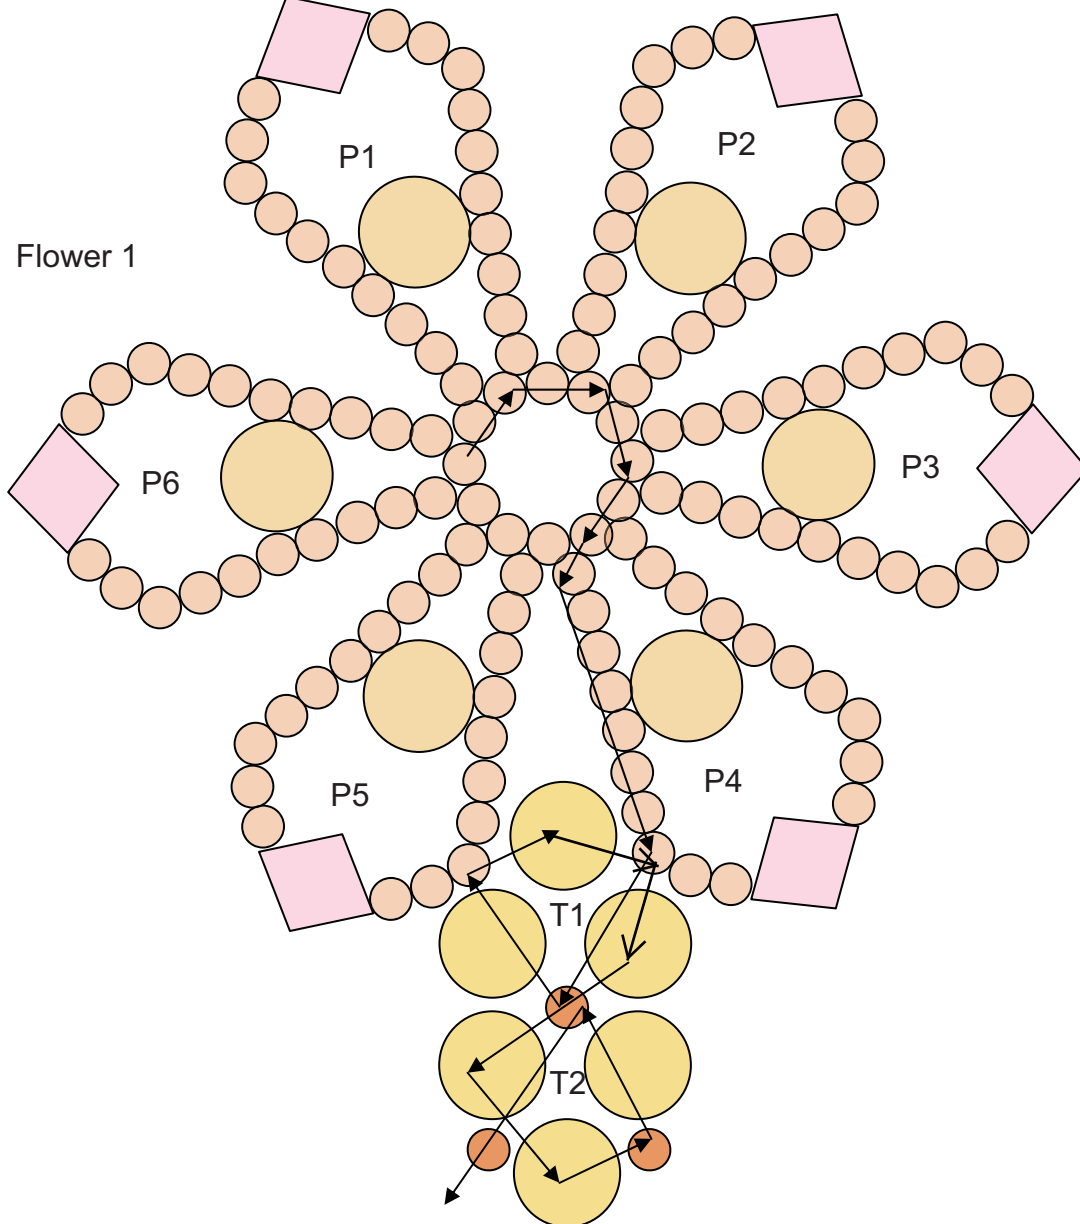

Step 1

Leave a 6" tail and pick up 12 seeds. Go through the first two seeds again to form a circle.

Pick up 10 seeds, one R crystal and 10 seeds. Go through the seed that your needle is exiting in the circle again (from the opposite side) to form a picot (**P1**).

Go up through the 1st 4 seeds of **P1** and pick up 1 GP. Go across the picot and down into the 7th seed from the R crystal on the opposite side. Go down through the next 3 seeds and into the circle seed again. Go through the next 2 seeds in the circle.

Step 2

I have shown you how to make 1 picot. Continue making picots around the circle until you have 6. There should be 1 bead in the circle between each picot.

When you have finished making picot 6, your needle should be back in the circle.

Go through the beads in the circle until you get to the circle bead for **P4**.

Go down through the 1st 8 seeds of **P4** on the left side.

Exit the 8th seed and pick up 1 WP, 1 seed, 1 WP. Go through the 3rd seed from the R crystal of **P5** (from bottom to top), and pick up 1 WP.

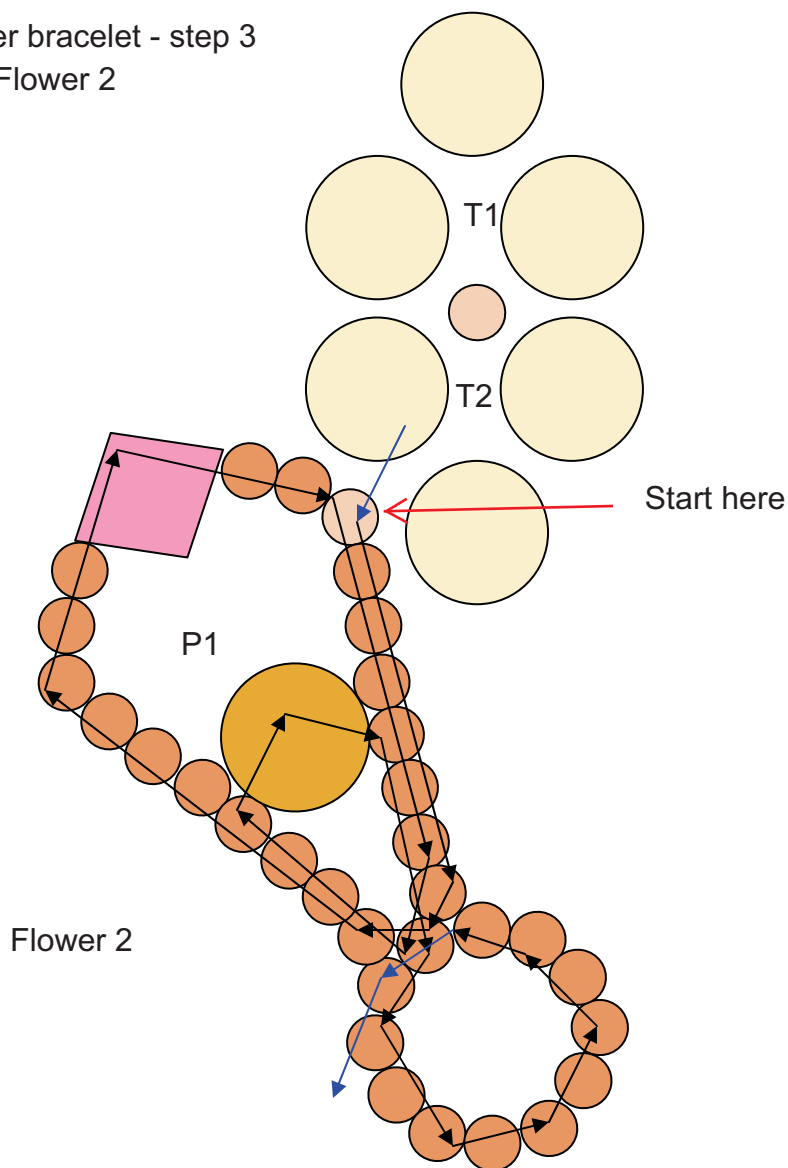

Go through the seed your needle is exiting in **P4** to form a triangle (**T1**).

Go down through the next WP and seed of **T1**.

Pick up 1 WP, 1 seed, 1 WP, 1 seed, 1 WP. Go through the seed between the 2 WP's of **T1** from right to left to form another triangle (**T2**).

Go down through the next WP and seed of **T2**

Starflower bracelet - step 3
Starting Flower 2

Step 3

You will now begin making the next 'flower'.

Your needle will be exiting the seed between the 2 WP's of **T2**.

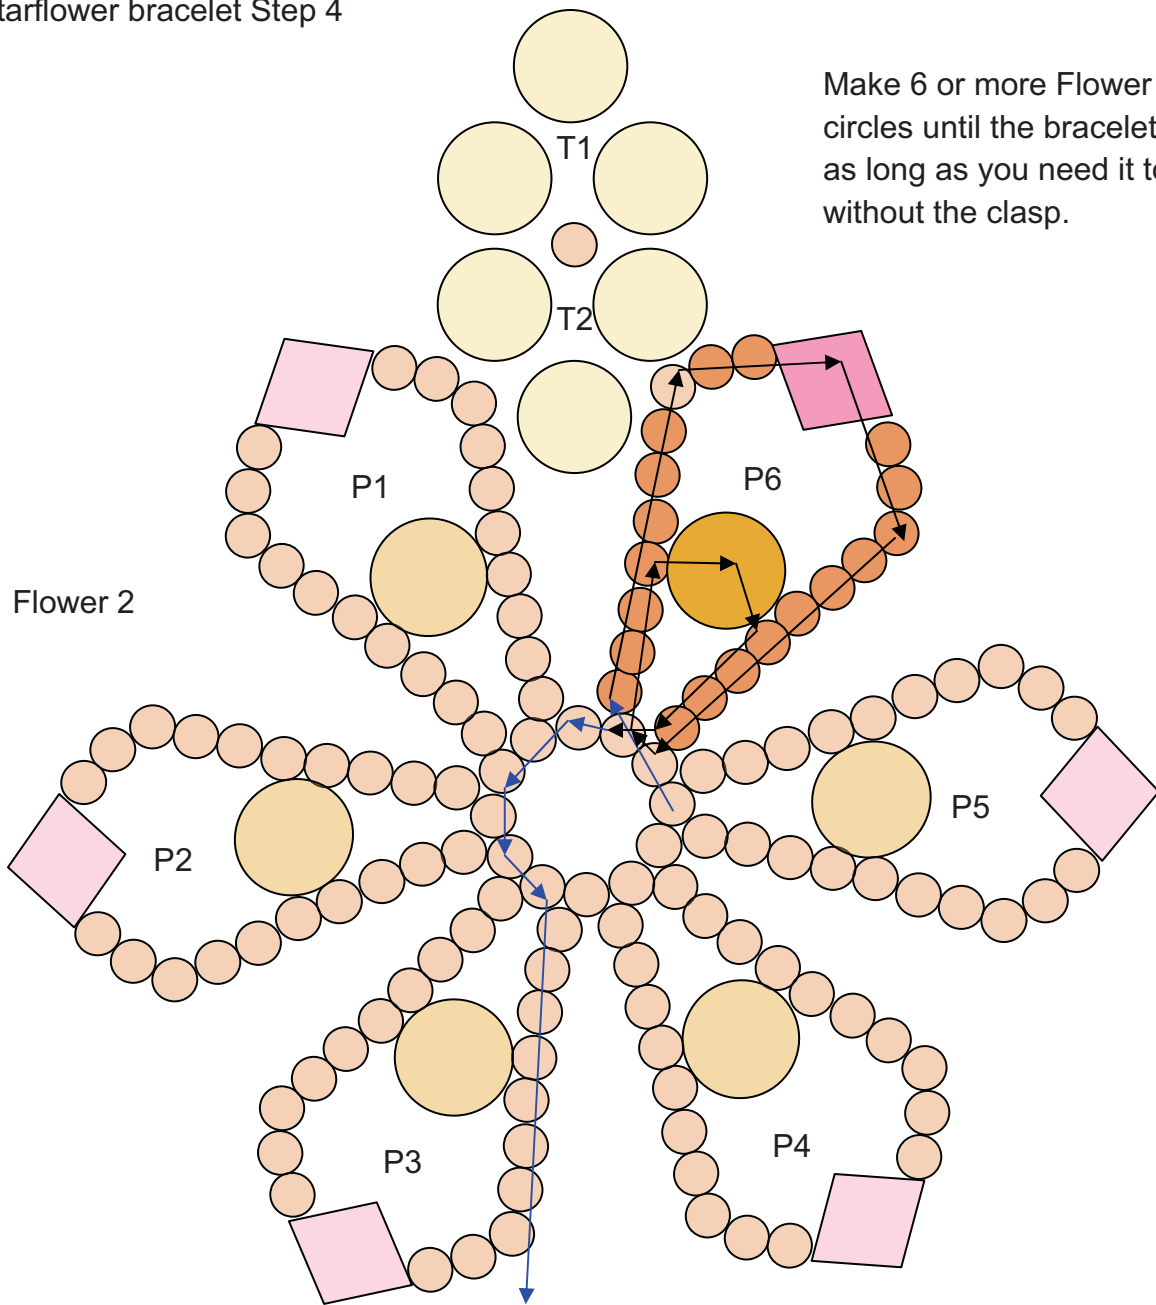

Pick up 18 seeds, 1 R crystal and 2 seeds. Go into the seed of **T2** again from top to bottom to form **P1**.

Go through the next 12 seeds of **P1** and pick up 1 GP. Go across and down into the 7th seed from the R crystal on the opposite side of **P1**. Go through the next 4 seeds and pick up 11 seeds.

Go into the seed your needle is exiting from the opposite side to form a circle.

Go through the next two seeds in the circle.

Starflower bracelet Step 4

Make 6 or more Flower circles until the bracelet is as long as you need it to be without the clasp.

Step 4

Continue making picots around the 2nd flower circle until you have made 5.

Go through the next two seeds and pick up 7 seeds. Go into the seed between the two WP's of **T2**.

Pick up 2 seeds, 1 R crystal and 10 seeds.

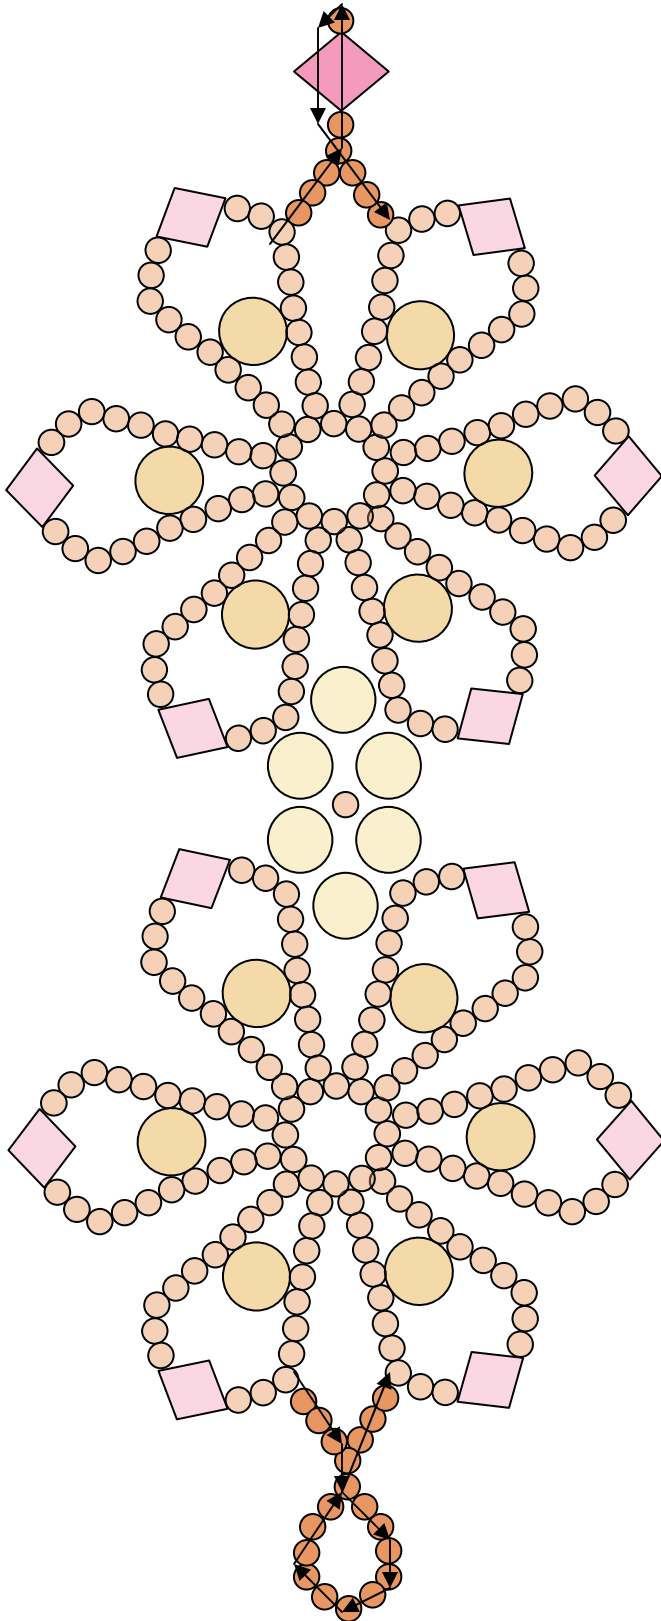

Go into the circle seed again from the opposite side to form **P6**.

Go up into the next 4 seeds of **P6**, pick up 1 GP and go across and down into the 7th seed from the R crystal on the opposite side of **P6**.

Go down into the circle seed of **P6** and continue through the circle seeds until you get to the circle seed of **P3**.

Go down through the next 8 seeds of **P3** to begin adding the next 2 triangles of WP's. You will notice that the picots of flower 1 are stitched in a clockwise direction. The picots of Flower 2 are stitched in an anti-clockwise direction.

Starflower Clasp instructions

You don't have to make a loop and crystal clasp for this bracelet if you don't want to.

Instead, attach a clasp of your own choice.

Side A

Exit the 8th seed on the inside of one of the picots at the end of the bracelet. Pick up 5 seeds, 1 x 6 OR 8mm Rose crystal and 1 seed.

Go back through the R crystal and the next 2 seeds.

Pick up 3 seeds and go into the 8th seed on the inside edge of the opposite picot.

Weave through to the circle and repeat the thread path to reinforce.

Weave in and tie off.

Side B

Exit the 8th seed on the inside edge of one of the picots at the other end of the bracelet.

Pick up 5 seeds, **PLUS** as many seeds as you will need to make a loop that will fit over the crystal at the other end of the bracelet. The loop must not be too loose or too tight. The diagram only shows a few seeds in the loop. You must add more.

Go back into the 5th and 4th seeds that you picked up and pick up 3 more seeds.

Go into the 8th seed on the inside edge of the picot on the opposite side.

Weave down to the circle and repeat the thread path to reinforce.

Weave into the bracelet and tie off
